Editor of the journal "Annals" Ovidius University, Medical Sciences Series since 2004- Member of the editorial board of the Romanian Journal of Clinical and Functional Anatomy, macro and microscopic and Anthropology Reader of the magazine "Index Copernicus Scientists, USA. - Chairman of the "87-eme Congrès de l'Association des Morphologistes, Constance, 2005; - Support the discipline of anatomy courses at the Medical Faculty of Nantes in 2005 and 2006. - Member of the Editorial Board of Journal of Medicine and Life, Bucharest, 2008. Prizes and Awards Award and honorary medal for papers presented at "The 75th Congress of Anatomists French, Lille, May 1993; Diploma founding member of the Romanian Society of Anatomists, October 1994; Second prize of Congress to "The 79th Congress of French Association of Anatomists, Reims, May 1997; First Prize "80th Congrès de l'Association des EME Anatomistes, Turin, May 1998; Diploma of Excellence conferred by the Scientific Committee of the Tenth National Congress of Anatomists Anatomy Society in Romania, as a sign of high appreciation for personal contribution to the organization and conduct scientific events of the congress, Targu Mures, 2009 and many others

Prof. Dr. Cristina Bortun – “Victor Babes” University Timisoara

Professor at “Victor Babes” University of Medicine and Pharmacy, Timisoara, Faculty of Dental Medicine, at Dental Technology Specialization. Her domain of interests is Removable Partial Dentures and Complete dentures technology and biomaterials for their achieving. Her competences are related to dental alloys, frameworks casting, processing, welding, especially CoCrMo, design and technology variants used in Removable Partial Dentures Technology. Dr. Bortun has also competences in

interpreting static analysis using finite elements method and mechanical static and dynamic resistance evaluation, for Removable Partial Dentures.

Her studies are also focused on four out of five known technologies variants of complete dentures and resins quality appreciation for elongation, bending, and fatigue tests in order to Estimate the lifetime - dentures warranty.

The results are directed to diminution of error sources in the dentures technology, increasing of responsibility and simplification of some long lasting and energy wasting technologies, through new materials and technologies implementation.

All the tests are realized in a multidisciplinary activity, in collaboration with Polytechnics University of Timisoara and Polytechnics University of Bucharest.

Her’s professional and scientific activity comprises: handbooks/textbooks (12); courses (8), papers published ISI reviews (10 in last 5 years), PubMed (6), Other International reviews (25 in last 5 years); papers published in the proceedings of international or national conferences (24 in last 5 years); participating in different national research projects; member of the scientific committee of different meetings (5); head of the organizing committee for different international conferences (3);

Prof. Dr. Klara Branzaniuc, Targu Mures University

Born at 10 January 1960. She graduated the Faculty of Medicine from the University of Medicine and Pharmacy Targu Mures. In 2003 she achieved the title of Primary Physician and in this period Dr. Branzaniuc was involved also in the academic activity. In the period 2002-2005 she was executive director of the Public Health Direction Mures. From 2004 Prof. Branzaniuc is Scientific Vice rector of University of Medicine and Pharmacy from Targu Mures, President of Scientific Council, Member of the Senate and the

Professors' Council of the Faculty of Medicine. From 2006 she is University Professor, PhD Head of University of Medicine and Pharmacy from Targu Mures, having 12 PhD Students in guidance, of whom 6 heading in association (cotutelle) with professors from European Union. In July 2009 she became the manager of the Emergency Institute of Cardiovascular Diseases and Transplantation from Targu Mures.

Also she is a member in the permanent Commission of Medical Sciences ARACIS. Prof. Branzaniuc has a large experience in the domain of research. Manager for one international project and 3 national project, member in other 7 national projects and 2 international projects. Visiting Professor at the National Institute of Oncology Budapest. Member in the Scientific Council of 4 Scientific Journals of which 2 B and B+ quoted, respectively 2 CNCSIS C quoted. Author of over 200 scientific papers of which 11 in ISI-PUBMED articles. She published 4 specialty books, 7 university courses, 2 monographs and other courses and book chapters. She was interested also in other domains than medicine. She graduated a course of Marketing, Management and Human Resources at Polytechnic University Timisoara and Quality Management at Academia TUV Rhineland.

Prof. Dr. Alexandru Bucur, „Carol Davila” University, Bucharest

Actual professional position: Head of the Oral and Maxillofacial Surgery Department, Dental Medicine Faculty, “Carol Davila” Univ. Bucharest.

Education: graduated Faculty of Dentistry in 1983 and Faculty of Medicine, “Carol Davila” University, in 1999; Master in Public Health Service Management, 2006. Scientific activity: 1998 primary doctor in OMF surgery; 1998 – D.D.Sc.; 2000 – competence in implantology; 2002 specialist in general dentistry;

Prof. Dr. Eeva Widstrom – Helsinki, Finland

Professor Eeva Widström - DDS (Ph.D.), MSc (social sciences), specialist dentist in Clinical Dentistry, currently works as Chief Dental Officer e.g. the professional adviser to Ministers and Government departments on all matters concerning dentistry and dental services at the National Institute of Health and Welfare (THL) in Helsinki, Finland. From autumn 2005 she has an appointment as Professor in

Dental Public Health at the University of Tromsø and works part time in Norway. Her past experience includes clinical work as a dentist, leading positions in the Public Dental Service, and teaching at various departments at dental schools in Finland and Sweden – lately also in Norway.

Her research field covers a wide range of themes derived from timely societal needs including epidemiological studies of the distribution of oral diseases and conditions in populations, use of dental services and related factors, variations in treatment patterns and use of dental materials.

Health services research, evaluation of care provision systems and health economics are important parts of her research.

Lately, she has also been involved with health political and administrative research. She has been the supervisor of four “dental” PhD theses (in diagnostics, health economics and health services research) and a number of Master theses also outside dentistry. She is currently supervising three more PhD students.

She has been the opponent at 16 dissertations and the –pre-examiner or member of evaluation committee at a further 9 dissertations in the Nordic countries. She has been used as evaluator of competence at several appointments of professors and grant applications internationally. She is and has been the board member of four international scientific dental journals and has and still acts as referee for numerous scientific dental journals. In addition, she is a frequently invited lecturer on dental matters all over Europe. Eeva Widström is the past President of the European Association of Dental Public Health and the Council of European Chief Dental officers.

She has published 80 scientific original articles in international scientific journals and 52 articles in domestic scientific journals and 250 other articles, reports or book chapters and 130 scientific congress abstracts. In 2004-2008 she had a major research grant from the Research Academy of Finland and was in charge of a project called "Markets, incentives and equity in Finnish dental care subject to a major reform."

DMD, MSc(DPH), MPA, DDPH Shlomo Zusman - Chief Dental Officer, Ministry of Health, Israel
